CALL FOR PAPERS

18th International Automobile Recycling Congress IARC 2018

LET'S MAKE
CARS
GREENER

March 14 – 16, 2018, Vienna, Austria

IARC 2018 is the international platform for discussing the latest developments and challenges of automobile recycling, bringing together more than 250 decision makers in the ELV recycling chain such as car manufacturers, metal and plastic scrap traders, recyclers, shredder operators, policy-makers and many more.

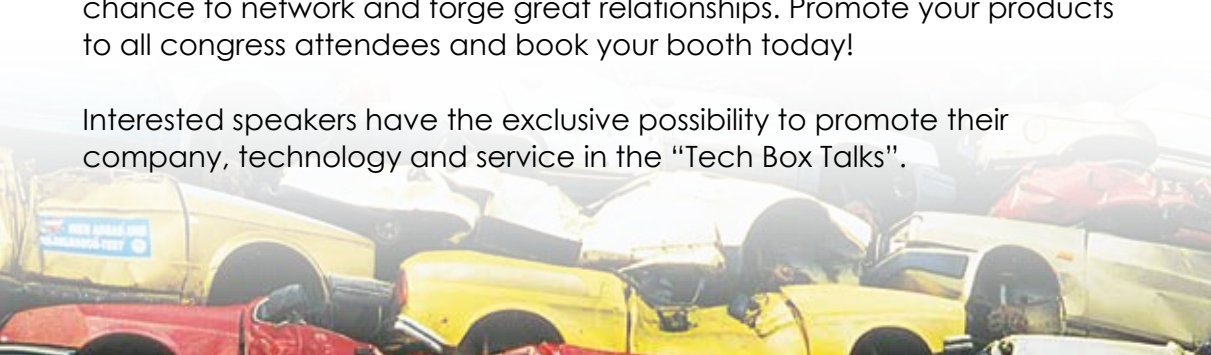

Topics

- Benefits of the circular economy for car manufacturers and recyclers
- Country reports and updates on new laws and regulations regarding take-back quotas
- Safety aspects of collection and recycling of electric vehicles (cars, trucks, buses, bikes)
- Update on future cars and its impact on recycling
- Autonomous driving vehicles impact on car recycling
- Next generation recycling processes and equipment
- Innovations in dismantling, shredding and sorting
- How to recycle new materials used in future cars
- Recycling of batteries and other hazardous components
- Reuse & refurbishment – How about data security?

Exhibition

The spacious exhibition hall with over 30 booths offers delegates the chance to network and forge great relationships. Promote your products to all congress attendees and book your booth today!

Interested speakers have the exclusive possibility to promote their company, technology and service in the "Tech Box Talks".
