sponsored by:

organised by:

DXC Technology (DXC: NYSE) is the world's leading independent, end-to-end IT services company, helping clients harness the power of innovation to thrive on change. Created by the merger of CSC and the Enterprise Services business of Hewlett Packard Enterprise, DXC Technology serves nearly 6,000 private and public sector clients across 70 countries. The company's technology independence, global talent and extensive partner network combine to deliver powerful next-generation IT services and solutions. DXC Technology is recognized among the best corporate citizens globally. For more information, visit www.dxc.technology.

CLEPA brings together well over 100 of the world's most prominent suppliers for car parts, systems and modules and more than 20 national trade associations and European sector associations.

We represent more than 3,000 companies and cover all products and services within the automotive supply chain. Founded in 1959 and based in Brussels, CLEPA is recognised as the natural discussion partner by international organisations and fellow associations.

CLEPA's Materials & Substances Working Group focuses on the importance that several materials have for the automotive supply industry. Join our association now and be part of the discussion!
